TopStyler Quick Start Guide

Select the C-Shells you want to use. The large and small C-Shells are mostly interchangeable, however you may want to use small C-Shells on bangs and around face.

Make sure all 10 C-Shells are secure on Thermal Base and Thermal Base is plugged in and the lid is open. The lid should remain open during use and while the base is cooling after use.

Powering TopStyler On/Off

1. Plug in your TopStyler. You will see a **"Red"** status indicator light.
2. Press the Orange Power Button to turn the heater ON. You will see a **"Blinking Green"** status indicator light as the heater begins heating your C-Shells (approx. 6 Minutes).
3. When the status indicator light turns **"Solid Green"** your C-Shells are heated and ready for use.
4. To turn your TopStyler OFF, press the Orange Power Button again. The status indicator light will turn **"Red"** and the heaters will turn off.

As a safety precaution your TopStyler's heater will automatically shut-off after 45 minutes.

If your style requires more than 10 C-Shells, simply put another C-Shell on the Thermal Base as you remove each hot one. The new C-Shells need only 4½ minutes to heat.

Start with clean, dry and detangled hair. Normal styling products can be used before and after to set your style.

Section your hair and wrap each section into clean, smooth curls around your finger(s) or around the split handle of your EZ Wrap Styling Comb. (see enclosed diagram or user manual for more detailed instructions.)

Place C-Shell over the finger curl you just formed.

Once your C-Shells are in place on your sectioned curls, allow them to cool for 1 to 10 minutes, depending upon desired result. Use more cooling time for longer hold. As with any hot styling tool, the style will change depending on how long you leave the C-Shells in. Have fun and experiment. You can do no wrong.

Once the C-Shells have cooled as much as you like, remove them from your sections and allow hair to drop. Your hair can then be loosened with fingers for a gorgeous natural look, or brushed out for more glamorous body.

The Basics

1. Section and Spray
2. Wrap
3. Pinch and Slide
4. Clip and Set
5. Cool and Remove

1. Section and Spray

Using your EZ Wrap Comb, detangle all hair then gather a section of hair with fingers or with the split handle of the comb. The section can vary in size depending on the look you want. **Smaller sections give you a more defined look**, while **larger sections give you a more natural loose wave look**.

Spray (optional): **To help set the style**, the section of hair can be spritzed with a **thermal setting spray or professional quality finishing spray** before adding a C-Shell.

2. Wrap

Hair can be **wrapped** into a curl using either **the split handle of the EZ Wrap Styling Comb** or **fingers**.

3. Pinch and Slide

Once the section is fully wrapped into a finger curl with the fingers or comb, **pinch the curl with thumb and forefinger of your free hand** making sure to keep hold of the ends of the hair.

Hold the curl in place then slide your fingers out.

Finger Curl

"Here is an example of a clean, well executed finger curl. Notice the hair ends are pinched in place with the curl."

Practice makes perfect!

4. Clip

While holding the curl you just made, clip the C-Shell onto your formed curl. **As the C-Shell is applied, you can pull your thumb and forefinger out.**

"The C-Shells are hot! Use caution when handling. As with any hot tool there is risk of burn. If you experience discomfort, remove C-Shell immediately."

Incorrect placement of a C-Shell. Do not "crush" the curl.

5. Cool and Remove

Allow C-Shells to cool in place on the head to set the style. This is an example of how the C-Shells can be placed on the head. **Place them wherever you want curl, more body and volume.**

Depending on the amount of definition you want, and your hair type, keep the C-Shells in place on your finger curl for **1-10 minutes**. **The longer you allow the C-Shells to cool, the longer your style will hold.**

Finishing Tips

You can easily finish the curls by gently running your fingers through the curls.

For a more formal look, gently brush the curls out with a brush.

Finger Curls and Wraps

Express yourself. Create a variety of looks using different techniques. Have fun and experiment. You really can't make a mistake.

- **Finger Wraps**
- **Finger Twists**
- **1-2 Wrap**
- **1-2-3 Wrap**
- **Figure 8 Wrap**
- **Funky Finger Wave**

Finger Wraps

"1 Finger Wrap" – This wrap is achieved by loosely wrapping the hair around the index finger (or any finger depending on what size curl you want). The result is similar to a curl you would get with a small curling iron, but without the barrel marks and creases.

"2 Finger Wrap" or "3 Finger Wrap" – This is a wrap using 2 or 3 fingers. The result is a loose, bouncy curl that can also be loosened into a fun, natural wave.

Finger Twists

"1 or 2 Finger Twist" – Twist the section of hair then wrap it around 1 or 2 fingers. **The result is an edgy, contemporary look.**

1-2 Wrap

"1 - 2 Wrap" – Begin by wrapping hair around one finger then two fingers. **This will give amazing lift at the roots and a more natural wave/curl on the ends.**

1-2-3 Wrap

“1-2-3 Wrap” – Begin by wrapping the same section of hair around one finger, then two, then three. This will give **lift at the root with a beautiful erratic wave on the mid-section and ends.**

Figure 8 Wrap

Wind the hair into a Figure 8 pattern around 2 fingers or use the split handle of your comb. **The result is a glamorous “Red Carpet” look with amazing easy flowing body.**

Funky Finger Wave

“Funky Finger Wave” – Twist the section of hair then wrap in a Figure 8 Pattern. **This will result in an interesting textured look that is hip and chic with tons of dimension.**

To get the most out of your TopStyler, learn how to
direct your curls for maximum control.

Directional Wrapping

The direction you wrap the finger curl also determines the type of look you will achieve. **Always wrap hair in the direction you want it to move and flow.** (When possible, allow the C-Shell to lay on the head in the direction you made the wrap.)

- Forward Wrap
- Backward Wrap
- Upward Wrap
- Downward Wrap

Forward and Backward Wraps

“Forward Wrap” holding fingers **vertically** and wrapping hair **in towards your face** will frame the face.

“Backward Wrap” holding fingers **vertically** and wrapping hair away from your face will push hair out and **away from your face**.

Upward and Downward Wraps

“Upward Wrap” wrapping hair **under** your finger first then over the top of the finger will result in a **fun, informal flip look**.

“Downward Wrap” wrapping over the finger first, then go under the finger to achieve a formal **Classic Wave or S-Pattern style**.

Special Wraps for Short Hair (3-6 Inches)

"1 Finger Wrap with Large Section" – Gives hair a more finished look with lots of body and movement.

"Spot Wrap" – Great to use when you want **volume and dimension** in certain areas of the head. Two popular spot wraps are at the **Crown** for that bump of volume, or at the **Temples** to give body on the sides of the head.

"All-Over Volume" – Twist a section then wrap into a finger curl. The result is a **fun, funky texture**.

NOTE: These wraps can also be done on hair that is any length. All of these looks can be mixed and matched to make up your own fun style!

All of these wraps can be done using larger and smaller sections of hair. Larger sections used will result in a more natural look, and smaller sections will give a more defined style.

It is easy to achieve 4 different looks with just one simple wrap. The variables are:

1. **With or without styling product**
2. **Direction of Wrap**
3. **Length of cooling time allowed for the C-Shells**
4. **Number of C-Shells used. You can get terrific looks using just a few C-Shells.**

Short and Sassy

Make a Grand Entrance with this fun and flirty easy to do style...

Short and Sassy

1 Finger Wraps

2 Finger Wraps

Backward Wraps

Upward Wraps

To get this fun, flirty look, simply wrap **small sections** into 1 Finger and 2 Finger wraps. This is a mix of mostly Backward and some Upward Wraps around the face. Leave C-Shells on for up to 10 minutes. Loosen hair gently with fingers.

Quick Tip: Use a styling spray before and after on any style where you want more definition and hold.

Uptown

Go for this all-day look that is perfect for work and play...

Uptown

2 Finger Wraps

Backward Wraps

1 Finger Wraps

For this simple, yet sleek look, do a 2 Finger Backward Wrap around the face and on temples and back of head. For more dimension, mix in some 1 Finger Wraps. Leave C-Shells on 5 to 10 minutes, and loosen with fingers, or brush for a more polished finish.

Enchanted

Get the most out of your look with this absolutely gorgeous style. You won't believe how simple it is to do.

Enchanted

Upward Wraps

2 Finger Wraps

Backward Wraps

This hot look always leaves a good impression. And it's simple to do. Do an Upward Wrap at the bangs with 2 Finger Backward Wraps everywhere else. Leave C-Shells in 6 to 10 minutes. Loosen with fingers and you're out the door.

Wild and Styled

Look playful yet sophisticated with just two simple steps...

Wild and Styled

1-2 Wraps

Backward Wraps

This look will have everyone wanting to run their fingers through your hair. To get this super fun look, try a 1-2 Wrap all over, and do a 2 Finger Backward Wrap using **larger sections** around your face. Let C-Shells cool full 10 minutes. Loosen lightly with fingers for tons of volume.

Soft Spin

Get incredible body and volume with this simple twist technique!

Soft Spin

1 Finger Wraps

Backward Wraps

2 Finger Wraps

Upward Wraps

To get all this gorgeous body and volume, simply **twist the hair just a couple of times before wrapping**, then do a 1 Finger Backward Wrap on the sides of the head. Do one large Backward Wrap at the bangs if you like. Mix in a couple of **large section 2 Finger Upward Wraps** at the crown. Leave C-Shells in 5-10 minutes. Lightly loosen with fingers or brush out for more finished look.

Sexy Sleek

Try framing your face with this simple soft and sexy do.

Sexy Sleek

2 Finger Wraps

Backward Wraps

Figure 8 Wraps

This deceptively simple style will have them turning around for a second look. To get this easy to do style, gather **larger sections** and do 2 Finger Wraps. Do some Backward Wraps around the face, and mix in some Figure 8 Wraps for texture around the crown. That's all there is to it.

The Wow Factor

*For when you're jet setting in Milan!
You can do anything with this quick
and easy style.*

The Wow Factor

1-2-3 Wraps

Backward Wraps

Forward Wraps

Leave them guessing with this fabulous look. Did she just come from the salon? Nope. She simply did a 1-2-3 Wrap. For the bangs, take **one very large section** and do a Backward or Forward Wrap depending on your mood. Leave C-Shells in 8 to 10 minutes. Set with spray if you like.

Fun and Flirty

In the mood to have some fun? Try this simple combo technique to unleash some flirty curls...

Fun and Flirty

1-2 Wraps

Forward Wraps

Backward Wraps

To get this amazing, fun look, simply gather **small sections** and do an all over 1-2 Wrap with a mix of Forward and Backward Wrap Techniques for texture. Avoid the bangs, or do one large wrap if desired. Leave C-Shells in for the full 10 minutes, and gently loosen with fingers and separate the ends.

Quick Tip: Have fun and experiment!

Dangerous Curves

It's time to get noticed! Turn some heads with this ultra voluptuous look.

Dangerous Curves

1 Finger Wraps

Backward Wraps

Downward Wraps

To get this jaw dropping look, simply do 1 Finger Wraps all over in a mix of Backward Wraps around the face, and Downward Wraps everywhere else. Leave C-Shells in until cool to the touch. You can get 3 looks in 1 with this one. You can drop the curls and leave them tight and untouched, you can loosen them for amazing volume and texture, or you can brush them out, as she did here, for that unbelievable wave and body.

Shock Wave

Spice up your nighttlife with this sultry look. Instead of spending hours on your hair, spend that time showing it off!

Shock Wave

1 Finger Wraps

2 Finger Wraps

Forward Wraps

Upward Wraps

Backward Wraps

For this edgy contemporary look, alternate with 1 and 2 Finger Wraps. This gives amazing lift at the root and erratic waves throughout. This is an equal mix of Forward, Upward and Backward Wraps. Leave C-Shells in 10 minutes then vigorously loosen with fingers.

Quick Tip: Don't forget, the longer you leave your C-Shells in, the longer the style will last...

Big Night Out

Glamorous and grand! Go all out without any of the fuss.

Big Night Out

1-2-3 Wraps

2 or 3 Finger Wraps

Upward Wraps

For this “night on the town” look, do an allover 1-2-3 Wrap on the crown and temples and back of head, and a 2 or 3 Finger Upward Wrap on the bangs. Leave C-Shells in 8 to 10 minutes. Loosen all over with fingers.

Quick Tip: Always start the wrap at the root and not at the ends!

The Figure 8

*The easiest way to impress anyone,
anywhere!*

The Figure 8

Figure 8 Wrap

To get this glamorous textured look, gather **smaller sections** of hair and wrap in a Figure 8 pattern. You can use small C-Shells around your face for more accented waves. Leave C-Shells in for the full 10 minutes, then gently pull the bottom of the sections to loosen.

Luscious

*Impress without the stress! Try these
Big luscious curls when you're in a
hurry...*

Luscious

2 Finger Wraps

Forward Wraps

Backward Wraps

For this sultry look, gather **medium size sections** of hair and do a 2 Finger Wrap. Use mostly Forward Wraps with some Backward Wraps mixed in. Leave C-Shells in 10 minutes or until C-Shells are cool. Loosen with fingers.

Vavoom!

*Be the woman who stands out... and
the only one who knows it took less than
15 minutes.*

Vavoom!

2 Finger Wraps

Backward Wraps

Downward Wraps

This look is limited only by how creative you want to be. Simply do 2 Finger Backward Wraps around the face. Mix in some Downward Wraps for gorgeous body. Concentrate the curl at the ends and mid-section of the hair. Leave C-Shells in until cool. You can loosen with fingers, or brush hair out for that perfect body.

The Natural

Creating that natural look has never been easier...

The Natural

2 Finger Wraps

Backward Wraps

Downward Wraps

Was she born with that hair? That will be the question on everyone's lips. This classic wave is fun and easy. Mix it up with some 2 Finger Backward Wraps around the face and Downward Wraps everywhere else. Use **medium to larger sections**, and leave C-Shells on for 6 to 10 minutes. Brush it out and be amazed.

Hard Twist

a little risky. a little wild. 100% fun!

Hard Twist

Twist

Funky Finger Wave

This unique look is bound to turn heads and it's easy to do. Twist **smaller sections** of hair then use a Funky Finger Wave. Leave C-Shells in for the full 10 minutes. Loosen hair with fingers as little or as much as you want.

Quick Tip: Use a styling spray before and after.

Hollywood

You don't have to be nice when you look this good...

Hollywood

Figure 8 Wrap

For this Red Hot look, wrap **larger sections** of hair into a Figure 8 Wrap. Leave C-Shells in for 5 to 10 minutes. Brush hair out for beautiful flowing waves that last all night.

Beachy Waves

Carefree and easy going. An effortless look ideal for a lovely day.

Beachy Waves

2 Finger Wraps

Backward Wraps

Downward Wraps

This look couldn't be easier. Simply gather **larger sections** of hair, and do a 2 Finger Wrap down the length. Mix it up with an equal number of Backward and Downward Wraps. Leave C-Shells in 6 to 10 minutes. Loosen with fingers or brush for texture.

Beautiful Body

Stunningly simple!

Beautiful Body

2 Finger Wraps

Backward Wraps

To get this positively sizzling look, gather just a few **large sections** of hair into a 2 or 3 Finger Backward Wrap. Leave C-Shells in for 10 minutes and brush hair out.

Natural Organic

Any way the wind blows... This casual yet sophisticated look promises to get noticed.

Natural Organic

Figure 8 Wraps

2 Finger Wraps

This sweet and natural look is easily achieved by doing primarily Figure 8 Wraps with **smaller sections**. Mix in some 2 Finger Wraps with **medium size sections**. Leave C-Shell on for 7 to 10 minutes, then loosen and rake fingers throughout length of hair.

Stepping Out

A new club, a new restaurant, or when it's time to make a statement. You can always count on this flattering look!

Stepping Out

2 Finger Wraps

Backward Wraps

Forward Wraps

1-2 Wraps

Anyone can do this elegant, striking style. Do a 2 Finger Backward Wrap around the face in **medium size sections**. Mix it up with 2 Finger Forward Wraps, or add in some 1-2 Wraps at the temples and back of head. Leave C-Shells in 8 to 10 minutes. Loosen with fingers. You're ready to go.

Big Waves

Celebrate your inner Goddess.

Big Waves

2 Finger Wraps

Backward Wraps

For this natural, sexy look, simply gather **large sections** of hair and wrap them into a 2 Finger Backward Wraps. Leave C-Shells in for 10 minutes. Can be loosened with fingers or brushed out for more formal look.

Midnight

*Girls night out and running late?
No problem! Break out with a starlet
look that'll last all night long.*

Midnight

Figure 8 Wraps

1-2-3 Wraps

To get this ultra delectable look gather **small-to-medium size sections** and mix Figure 8 wraps with 1-2-3 Wraps. Let C-Shells cool 10 minutes. Hair can be loosened with fingers for fun definition or brushed out for smoldering body.
